

Dear Parent/Guardian

Due to a change in our policy on administering medication to young people on RESIDENTIAL courses at Cobnor Activities Centre, the following is a list of medication that if required we may give to a young person who is attending the Centre.

To do this we require your consent, so please see the list below and sign where appropriate. These medications will be administered by a senior member of staff, the dose and frequency will be recorded.

If you wish to discuss this further please ring the office prior to commencement of the course.

Mark Murray-Brown
Centre Manager
