

## **RISK MANAGEMENT SUMMARY FOR COBNOR ACTIVITIES CENTRE TRUST**

Cobnor Activities Centre recognises the need for visiting groups to assure themselves that the quality and safety of our outdoor activity provision, our risk analysis and management systems are adequately robust. The purpose of this document is to help group organisers by providing the information usually requested.

### **ADVENTURE ACTIVITIES LICENSE**

At Cobnor Activities Centre, we believe that the safety of outdoor activities is best assessed by the experience and expertise of the Adventure Activities Licensing Scheme (AALS). Cobnor Activities Centre is inspected every two years and holds a licence issued by AALS for the safe conduct of activities it delivers, as required by law. AALS is part of the Health and Safety Executive (HSE) which is the Adventure Activities Licensing Authority. The inspection process covers the safety management of activities, which includes risk assessments, staff qualifications and the maintenance of equipment associated with the activities. The inspectors are experts in the field of outdoor activity delivery and the inspection is rigorous. Cobnor Activities Centre Trust undertakes to perform to the requirements and guidance of the Licensing Scheme and its inspectors and is also subject to spot inspections. - Kayaking (Tidal waters)
- Open Canoeing (Tidal Waters)
- Sailing (Tidal waters)
- Stand UP Paddleboarding (Tidal waters)
- Improvised Rafting (Tidal waters)

In addition, AALS can (and do) include in their inspection non-licensable activities and unrelated activities, to establish whether a “culture of safety” exists within the organisation.

Cobnor Activities Centre Trust has a Health and Safety policy and a Code of Practice which include generic risk assessments supported by site specific risk assessments, which also outline the benefit in taking part in each activity. These are held at the centre and are available for inspection while on site. These are updated regularly and reviewed annually. In addition, the daily risks are assessed at our morning meetings to take into account the forecast weather, staff qualifications and equipment availability. Dynamic risk assessments are carried out by activity delivery staff before and during the activity to take into account local conditions and other continually changing factors. All visitors to the centre are asked to acknowledge the inherent risks in adventurous activities prior to their visit, however acknowledging the benefits each activity and experience can bring.

### **TRANSFER OF RESPONSIBILITIES**

The visiting group leader has overall responsibility for their group at all times. The Head of Centre has responsibility for the programme, equipment and facilities and for operating the Centre to legal requirements. Cobnor Activities Centre staff will be responsible for the safety and management of participants on all activities provided by the Trust. Visiting staff retain a duty of care at all times for participants under 18. If a participant is withdrawn from the "led" activity for any reason, then the responsibility for those withdrawn will revert to the visiting staff. If, at any time, visiting staff are unhappy about an activity, it is essential that they make their concerns known to Cobnor Activities Centre staff at the earliest opportunity. Visiting staff may insist that any activity does not continue on the grounds of physical or psychological harm, or that the activity is not commensurate with their planned outcomes.
